

Calcium Bentonite Clay Tips & Testimonials from Perry A~

It's Perry A~ and I am back. Though we sold the Living Clay business in 2015, I have not retired from educating people to the plethora of uses of Calcium Bentonite Clay and answering their questions (512-773-0335 perrya@perrya.com) in an effort to understand this complicated natural substance. As I promised I will maintain the free clay information website www.BentoniteClayInfo.com. Since retiring from the webinars due to ongoing increasing expenses, I am picking up the slack by sending tips, articles, suggested protocols and new testimonials to share the magic of Bentonite Clay.

For a definitive guide to understanding and using clay I recommend my newest book *Calcium Bentonite Clay Nature's pathway to Healing – Balance, Detox, Stimulate, Alkalize*. You can order from www.TheClayBook.com or [Amazon](http://Amazon.com).

Today's Tips & Testimonials is about Bug Bites and Staph Infection

Love the newsletter and have been using clay on my granddaughter's bug bite that turned into a staph infection requiring a trip to the ER. It looked MUCH better after the first application -- my son was completely skeptical -- but after 2 more applications he was starting to be convinced. -Jenny M.
